

FIRST BENCHMARKING ROUND W-STEM Student Group

Universidad del Norte

Index

1. Description of the W-STEM Student Group
2. Results
3. Strategies and policies
4. Implementation and sustainability
5. Success and failure

Description of the good practice

Axes to impact

- Attraction of women to STEM programs
- Retention and talent empowerment during STEM training

STEM programmes in Uninorte

- Geology
- Mathematics
- Architecture
- Systems Engineering
- Industrial Engineering
- Civil and Environmental Engineering
- Electronical Engineering
- Electrical Engineering
- Mechanical Engineering

Description

The W-STEM Uninorte Student Group (W-STEM USG) is a student community founded last summer as a mechanism of attraction and retention of young women in STEM fields. The main objectives of this group are:

- 1. create a physical channel of dissemination for W-STEM PROJECT
- 2. Attract young women to STEM careers
- 3. Provide relevant information about STEM careers to young girls in secondary schools
- 4. Sensitize the community about the importance of gender equity in STEM fields.

Stage of development

- Creation / design / planning
- Development / Application / Execution

Results

Results

- Recruitment of over 100 member students
- Over 200 followers on our [Instagram page](#)
- Connections with existing robotics, programming, and data analysis seedbeds
- First session of the robotics and programming seedbed
- State of the art of role models and information concerning the gender gap in STEM fields.

W-STEM UNINORTE

- Grupo Estudiantil Uninorte
- Una iniciativa de estudiantes para estudiantes 💜
- Acortando la brecha de género una mujer a la vez ⚖️

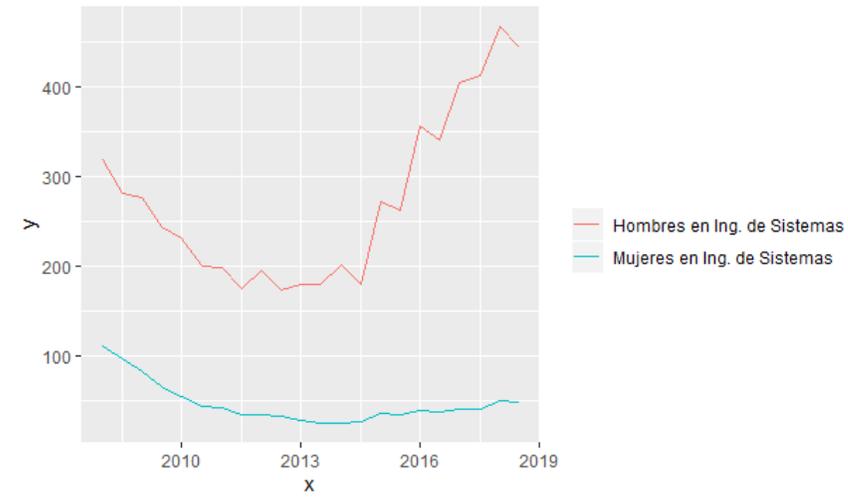

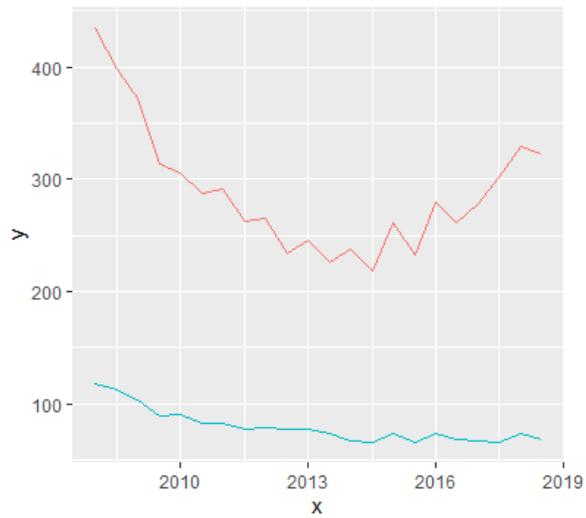

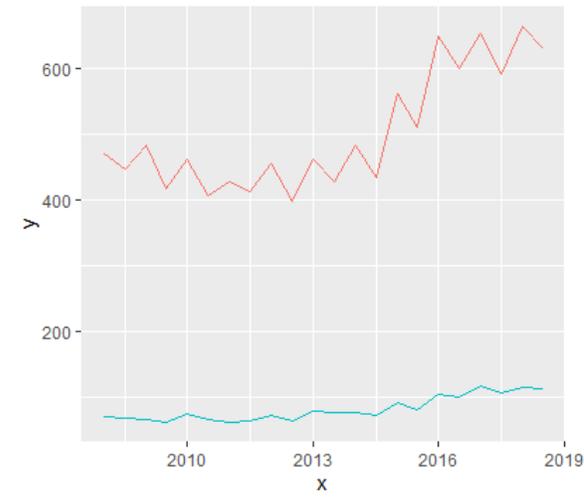

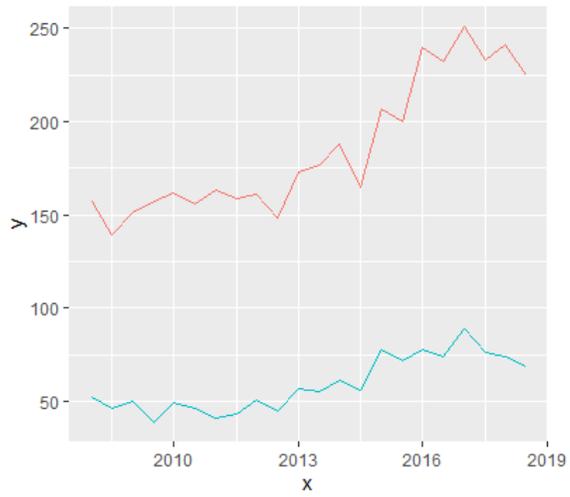

Übersetzung anzeigen

How we came up with this idea

- % Crecimiento población hombres en carreras STEM
- % Crecimiento población mujeres en carreras STEM

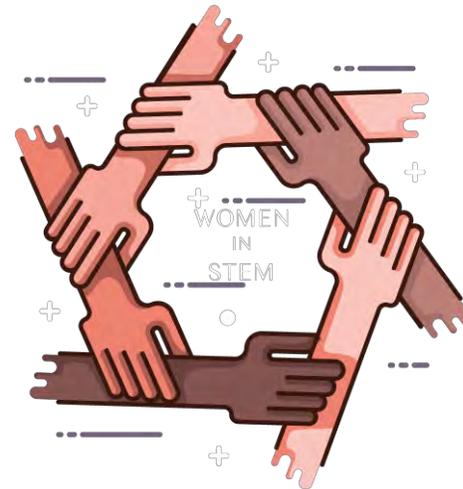

Implementation and sustainability

| Indicator | How to measure | Goal |
|---|--|--------|
| Number of assistants | Total number of assistants | 40 |
| Number of assistants (STEM women in senior positions) | number of stem women in senior positions/number of assistants | 5-10% |
| Number of assistants (female college students) | number of female college students/number of assistants | 20% |
| Number of assistants (female school students) | number of female school students/number of assistants | 50% |
| Number of assistants (other) | number of assistants (other)/number of assistants | 20% |
| Satisfaction level | number of satisfied assistants/number of assistants | 80% |
| Impact on the career path decision | Number of female school students who would consider studying a STEM career after the activity/number of female school students | 60-70% |

- Recruitment of college students in order to secure the sustainability of the student group.
- Development of activities that allow to visibilize local role models in order to motivate college girls and minimize desertion rates.
- Networking with other student groups of national and international universities.
- Making relationships with key actors in the processes of attraction and guidance (admissions office, CREE, etc).

Success and failure

- The motivation of students within the student group.
- Planification, organization, and promotion of activities.
- Interest and motivation of STEM women in senior positions
- Institutional support
- Resources (budget and facilities)
